Angular Internship Program

Description

We, at GALTech Technologies Pvt Ltd, Infopark – Koratty is conducting a training on Angular 7 & Google Firebase Cloud Database for fresher's who are looking to start their career in Advanced Software Engineering.

It will be a 3 month's program with two months of training and one-month internship.

By joining this program, you will benefit the following:

1. Ability to study and work on latest Angular and Firebase programming.
2. Opportunity to work on live projects with senior programmers.
3. Get internship completion certificate.

We are having limited seats available for this program at our office in Infopark Thrissur.

Please note that, there will be a training fees of Rupees 30,000/- for this program. During the internship program we will evaluate your performance and based on that you will get a chance to get hired by our company.
