Senior Shopify Developer (01-03 YEARS)

Description

We are seeking a highly skilled Senior Shopify Developer with 1 to 3 years of experience. The ideal candidate will have strong proficiency in JavaScript, extensive experience with Shopify themes, and a solid understanding of Shopify Apps and Polaris. A background in PHP and Laravel is also desirable. This role requires a deep understanding of e-commerce best practices and the ability to translate business requirements into high-quality, user-centric solutions.

Key Responsibilities:

1. Develop, customize, and implement Shopify themes and storefronts to meet business requirements.
2. Utilize Shopify's Liquid templating language to create dynamic and engaging user experiences.
3. Leverage advanced JavaScript and frameworks (such as React, Vue.js, or Angular) to enhance front-end functionality and
performance.
4. Develop and maintain web applications using PHP and Laravel, ensuring seamless integration with Shopify platforms.
5. Integrate third-party applications and APIs to extend store capabilities.
6. Optimize website performance to ensure fast loading times and a seamless shopping experience.
7. Collaborate with design and marketing teams to implement new features and improve existing functionalities.
8. Troubleshoot and resolve technical issues promptly to maintain site reliability.
9. Stay updated with the latest e-commerce trends and Shopify platform updates to ensure our store remains competitive.

Qualifications:

1. Bachelor's degree in Computer Science, Information Technology, or a related field.
2. 1 to 3 years of professional experience in Shopify development.
3. Strong proficiency in JavaScript and experience with JavaScript frameworks (e.g., React, Vue.js, Angular).
4. Extensive experience with Shopify themes and Liquid templating language.
5. Knowledge of Shopify Apps development and familiarity with Shopify's Polaris design system.
6. Proficiency in PHP and experience with the Laravel framework.
7. Understanding of e-commerce best practices and SEO optimization.
8. Excellent problem-solving skills and attention to detail.
9. Strong communication skills and ability to work effectively in a team environment.

Preferred Skills:

1. Experience with version control systems like Git.
2. Familiarity with agile development methodologies.
3. Knowledge of performance optimization techniques and tools.
