

## Trainer – AI Agents, Data Science & Analytics(0 to 1 YEAR)

### Description

We are seeking an Trainer – AI Agents, Data Science & Analytics to lead our advanced AI engineering and data science course, inspiring the next generation of data scientists. The ideal candidate will have a strong background in Python programming, machine learning, deep learning, and Django web development and be enthusiastic about teaching these concepts effectively.

### Roles and Responsibilities

1. Instruct students in Python, data science, machine learning, deep learning, and natural language processing (NLP) concepts.
2. Conduct hands-on sessions covering data handling, SQL, model evaluation, and full-stack web development with Django.
3. Mentor students, guiding them through weekly projects and exercises to reinforce learning.
4. Lead students in designing and deploying real-world projects, with a focus on machine learning and NLP.
5. Stay current with data science advancements to integrate the latest tools and techniques into the course.

### Required Skills and Experience

1. Technical Proficiency: Knowledgeable in libraries like Numpy, Pandas, scikit-learn, TensorFlow, and PyTorch.
2. Machine Learning Expertise: Experience in model development, tuning, and evaluation.
3. NLP Frameworks: Familiarity with tools like NLTK, SpaCy, or Hugging Face Transformers.
4. Web Development with Django: Skilled in REST APIs and SQL database integration.
5. Communication: Able to break down complex concepts into engaging, understandable lessons.
6. Freshers : Passionate about teaching, with strong communication skills can also apply

### Qualifications

1. Educational Background: Bachelor's degree in Computer Science, Data Science, or a related field (Master's preferred).
2. Certifications: Certification in data science or machine learning (e.g., Data Science Professional Certificate) is a plus.
3. Training Experience: Prior instructional design or training experience preferred.

### Education

Bachelor's degree

### Contacts

### Date posted

July 19, 2025

### Hiring organization

GALTech School oF Technologies Pvt Ltd

### Job Location

Koratty, Thrissur, 680308, Thrissur, Kerala, India

### Employment Type

Full-time

### Skills

Numpy, Pandas, scikit-learn, TensorFlow, and PyTorch

### Industry

Information Technology

### Base Salary

INR 10000 - INR 25000

### Working Hours

9.00AM – 6.00PM
